We digitize more than 25 million pages per year with the BRZ scan service

Services & features

- > since 2011, centralized as well as decentralized processing
- > flexibly adaptable to individual requirements
- > Cost-efficient production through optimized processes and the use of centralized high-performance scanners
- > optional logistics services for scanning projects
- > paper storage and disposal
- > quality assurance for automatically read out document data

Facts & figures*

- > **18 high-performance scanners** in central production
- > **25 million pages processed per year**
- > 26 validation clients for quality assurance
- > 18 parallel scan processing work flows
- > rapid up-scaling of infrastructure and personnel for up to 50 to 60 million pages per year possible

Customer benefits

- > saves time
- > reduces space
- > high quality data
- > data access – anytime, anywhere
- > prerequisite for process automation and “mobility”
